Home Fire Campaign

Free Smoke Alarm Installations & Fire Safety Information

HOME FIRES ARE THE MOST COMMON DISASTER IN THE U.S. WHEN IS THE LAST TIME YOU CHECKED YOUR SMOKE ALARMS?

On average, more lives are lost to home fires every year than to all other major disasters combined. But, collectively, we can change that.

Just one working smoke alarm can reduce the risk of dying in a home fire by half, yet about 25 percent of homes lack even one working alarm. Through the **Home Fire Campaign**, the Red Cross partners with local organizations and fire departments to conduct in-home safety visits to create fire escape plans, install **free** life-saving smoke alarms, and document services provided and additional needs.

To request a smoke alarm fill out our online form at tinyurl.com/HFCrossville

Or scan the QR code to submit a request for an installation:

Hi! I'm Pedro!
I recently experienced
an emergency.

I felt scared, nervous and afraid.
I didn't know what to do with all
these feelings! I asked my friends
if they ever experienced something
like this and what they did to help
them, and now I have so many tools
to help me feel better.

Do you want to
learn, too?
Follow me!
